SKILLS

- Proficient in JavaScript, Node.js, React, Next.js, and Express.js HTML, PYTHON PHP ,LARAVEL

- WORDPRESS

- Tailwind CSS, Framer Motion, and GSAP CSS3

- , REST API design, and JWT authentication

- PostgreSQL and MongoDB MYSQL

- Socket.IO and WebSocket

- Competent in UI/UX design principles, prototyping, and responsive design

- Tesseract.js (OCR), Multer, and Sharp

- Strong understanding of performance optimization and scalable architecture

CERTIFICATIONS

Node.js Backend Development –
Udemy / Self-Guided Project Series
 Built RESTful APIs and authentication systems using

Node.js, Express.js, and JSON Web Tokens — focusing on performance, scalability, and clean architecture.

To leverage my full stack development skills to build modern, high-performance platforms that combine strong backed logic with elegant, user-focused interfaces. Passionate about creating scalable solutions using Node.js, React, and Next.js that enhance performance, usability, and overall digital innovation.

EDUCATION

Bachelor of Science in Computer Science

University: Universum COMPUTER SCIENCE
Duration: September 2025 - in Progress
Description: This program provided a comprehensive understanding of computer science principles, including programming languages, algorithms, data structures, and software engineering.

WORK EXPERIENCE

Front End Developer
Shigjeta LLC , Kaçanik
May 2023 - Present | September 2025

- Designed and developed modern, high-performance frontends using React, Next.js, and Tailwind CSS.
- Built and maintained user interfaces for multiple platforms, including DarkTech.xyz, Cytreex.com, Shigjeta.com, Kobags-Group.com, E-qera.com, and E-Vleresoj.com.
- Implemented responsive, dark-themed designs and interactive animations using Framer Motion and GSAP.
- Collaborated closely with backend teams to integrate APIs and optimize system performance.
- Enhanced site loading speeds by up to 40%, improving user experience and SEO results.
- Ensured consistent branding and UI/UX across all platforms while maintaining scalable code architecture.

Web Developer
Shigjeta LLC , Kaçanik
September 2023 - August 2025

- Designed and developed full-stack applications using modern web technologies, handling both front-end and back-end development.

JavaScript Algorithms and Data Structures – *freeCodeCamp*

Mastered algorithmic problem-solving and ES6+ concepts for building optimized, maintainable, and scalable client-side applications.

- Built and maintained dashboards, dynamic interfaces, and admin tools for multiple platforms, including E-Vleresoj.com, Sonnenwahl.de, Toka-KS.com, E-Krahasoj.com, cytreex.com e-visiton.com and jlg-construction.com
- Implemented authentication (JWT), user roles, ratings, reviews, and comment moderation systems to ensure secure and interactive experiences.
- Integrated payment gateways, content management systems, and API connections for dynamic, data-driven functionality.
- Optimized performance, responsiveness, and UX across web applications, improving load times and mobile usability.
- Managed end-to-end development: front-end UI, back-end logic, database design, and server deployment.
